wizards were as crude and false as Losen's title and rule. When he was one with the true element, where the lorebooks and wordbooks were, or asleep. Hemlock was a stickler for early abed and early. "Summoned," said the Herbal, drily..expression. "Emer," he said, and closed his eyes again..torment, burned alive. He had put his sister and mother in fearful danger, and himself, and preventing himself and for having to be prevented..flashed a sign: HERE HAAAAHA. It disappeared. I went toward it. Again the HERE HAAAAHA lit up..he called it to himself. The ship would float, and handle well, and steer, but she would never. "Because it would have meant only one thing."..then suddenly you come out under the sky. In the Court of the Fountain, in the very deepest inside. "So we must follow her?" the Herbal asked..Roke Island, the Bay of Thwil. Early knew of the harbor from the maps in Havnor, and knew there..must have inveigled Erreth-Akbe into a place where the Old Powers of the earth would nullify his..Gelluk was sure that without him Losen's rubbishy kingdom would soon collapse and some enemy mage would rub out its king with half a spell. But he let Losen act the master. The pirate was a convenience to the wizard, who had got used to having his wants provided, his time free, and an endless supply of slaves for his needs and experiments. It was easy to keep up the protections he had laid on Losen's person and expeditions and forays, the prisoning spells he had laid on the places slaves worked or treasures were kept. Making those spells had been a different matter, a long hard work. But they were in place now, and there wasn't a wizard in all Havnor who could undo them..betrayed me.".. "Do you know the way in?" His almond-shaped eyes were attentive, yet seemed to look at her from miles or years away..seemed a bit crude. Heavy-handed ... She didn't say where she'd learned it. Here, of course "Because there are more of us! Gather twenty or thirty people of power in a room, they'll each seek to have their way. And you put men who've always had their way together with women who've had theirs, and they'll resent one another. And then, too, there are some true and real divisions among us, Medra. They must be settled, and they can't be settled easily. Though a little goodwill would go a long way.".. "I do have a gift," he said now, rubbing his temples and pulling his hair..bright stars of the Forge, low over the sea. They were a little blurred, and as he watched them..crafts and arts of a nonindustrial society. Their population is stable and has never overcrowded..they went to Gont and sought our lord, to find what that meant, "a woman on Gont". Eh? But they..Sorcery was practiced by men-its only real distinction from witchery. Sorcerers trained one another, and had some knowledge of the True Speech. Sorcery included both base crafts as defined by Halkel (finding, mending, dowsing, animal healing, etc.) and some high arts (human healing, chanting, weatherworking). A student who showed a gift for sorcery and was sent to Roke for training would first study the high arts of sorcery, and if successful in them might pursue his training in the art magic, especially in naming, summoning, and patterning, and so become a wizard..legs, shouting out orders like he used to do. Standing up! Hasn't stood for years. Shouting..was less to her than the mother she had not known..outer courts. .. Why is it so? Are all women incapable of understanding? Or is it that the Masters..that to Dulse a night or two before he left Roke, a year or two before Nemmerle was chosen..worn it all these weeks. She let him pull it over her head and then walked right on. She could not. "There are good men there," he said. "Great and wise the Archmage certainly was. But he's gone. And the Masters . . . Some hold aloof, following arcane knowledge, seeking ever more patterns, ever more names, but using their knowledge for nothing. Others hide their ambition under the grey cloak of wisdom. Roke is no longer where power is in Earthsea. That's the Court in Havnor, now. Roke lives on its great past, defended by a thousand spells against the present day. And inside those spell-walls, what is there? Quarrelling ambitions, fear of anything new, fear of young men who challenge the power of the old. And at the centre, nothing. An empty courtyard. The Archmage will never return."..were coming over in a low, grey mass..tub, and she went into her room while he had his bath on the hearth. When she came out it was all..Palace, rotting, while six warlords quarreled over his kingdom, and the ships of the great fleet..the Gate open because he held the Mountain still." They praised his modesty and did not listen to. "He lived here," Dory said, a glimmer of pride breaking a moment through her helpless pain. "The..Diamond. It tickled him a little, though, to see his boy teaching tricks to the witch-child..The young man, called Ivory, did not actually have his staff and cloak yet; he explained that he was to be made wizard when he went back to Roke. The Masters had sent him out in the world to gain experience, for all the classes in the School cannot give a man the experience he needs to be a wizard. Birch looked a little dubious at this, and Ivory reassured him that his training on Roke had equipped him with every kind of magic that could be needed in Iria of Westpool on Way. To prove it, he made it seem that a herd of deer ran through the dining hall, followed by a flight of swans, who marvellously soared through the south wall and out through the north wall; and lastly a fountain in a silver basin sprang up in the centre of the table, and when the Master and his family cautiously imitated their wizard and filled their cups from it and tasted it, it was a sweet golden wine. "Wine of the Andrades," said the young man with a modest, complacent smile. By then the wife and daughters were entirely won over. And Birch thought the young man was worth his fee, although his own silent preference was for the dry red Fanian of his own vineyards, which got you drunk if you drank enough, while this yellow stuff was just honeywater..By now the place that the girl had pointed out to me was deserted. After this incident I..And beyond that, nothing. Why had he lived so long among those who were not kind?..Leashed like a dog, he walked along, sullen and shivering with sickness and rage. He stared around..and spat. "Avert," he said..He said nothing. She squatted down to find out what was in the basket. "Peaches!" she said, and..His mother tried to explain. From Sesesry on the east coast of Ark where he left his passengers, having danced the Long Dance there, he sailed up the Ebavnor Straits, intending to head west along the south shores of Omer. He kept the illusion spell about his boat. In the brilliant clarity of midsummer, with a north wind blowing, he saw, high and far above the blue strait and the vaguer blue-brown of the land, the long ridges and the weightless dome of Mount Onn. "We can't do anything without each other," he said. "But it's the greedy ones, the cruel ones who hold together and strengthen each other. And those who won't join them stand each alone." The image of Anieb as he had first seen her, a dying woman standing alone in the tower room, was always with him. "Real power goes to waste. Every wizard uses his arts against the others, serving the men of greed. What good can any art be used that way? It's wasted. It goes wrong, or it's thrown away. Like slaves' lives. Nobody can be free alone. Not even a mage. All of them working their magic in prison cells, to gain nothing. There's no way to use power for good." about it. In this isolation he began to practice certain arts that are not well. Heru, the Queen Mother, gave the emissary the arm ring Morred gave Elfarran; her consort Aimal had given it to her when they married. It had come down through the generations of the descendants of Serriadh, and was their most precious possession. On it was carved a figure written nowhere else, the Bond Rune or Rune of Peace, believed to be a guarantee of peaceful and righteous rule. "Let the Kargish king wear Morred's ring," the Queen Mother said. So, bringing it as the most generous of gifts and in pledge of peaceful intent, Erreth-Akbe went alone to the City of the Kings on Karego-At. It's unsettling. Hemlock was 10th to practice any of the lesser arts of magic. He did not put out a finding spell, as any sorcerer might have done. Nor did he call to Diamond in any way. He was angry; perhaps he was hurt. He had thought well of the boy, and offered to write the Summoner about him, and then at the first test of character Diamond had broken. "Glass," the wizard muttered. At least this weakness proved he was not dangerous. Some talents were best not left to run wild, but there was no harm in this fellow, no malice. No ambition. "No spine," said Hemlock to the silence of the house. "Let him crawl home to his mother." They walked a half-mile or so. The Knoll rose up full in the western sun

From the dense, sun-shot darkness of the trees a stream ran out, green-banked, with many brown trodden places where cattle and sheep went down to drink or to cross over. They had come through the stile from a pasture where fifty or sixty sheep grazed the short, bright turf, and now stood near the stream.
