There are some who say that the school had its beginnings far differently. They say that Roke used to be ruled by a woman called the Dark Woman, who was in league with the Old Powers of the earth. They say she lived in a cave under Roke Knoll, never coming into the daylight, but weaving vast spells over land and sea that compelled men to her evil will, until the first Archmage came to Roke, unsealed and entered the cave, defeated the Dark Woman, and took her place.. compelled by him, but she was with me, and she was free. Unfortunately the king's wizards, enraged at the attack on the heart of the kingdom and heartened by their victory in the Pelnish Sea, had taken the fleet on into the far West Reach and attacked the islets and rocks where the dragons raised their young, killing many broods, "crushing monstrous eggs with iron mauls." Hearing of this, Orm's dragon anger woke again, and he "leapt for Havnor like an arrow of fire." Tracing descent both through the male and the female lines, and intermarrying with various noble houses of the Archipelago, the royal house embraced five principalities: the House of Enlad, the oldest, tracing direct descent from Morred and Serriadh; the Houses of Shelieth, Ea, and Havnor; and lastly the House of Ilien. He had thought well of the boy, and offered to write the Summoner about him, and then at the first test of character Diamond had broken. "Glass," the wizard muttered. At least this weakness proved he was not dangerous. Some talents were best not left to run wild, but there was no harm in this fellow, no malice. No ambition. Then the great fleet turned west, heading for the one harbor of Roke Island, the Bay of Thwil. Early knew of the harbor from the maps in Havnor, and knew there was a high hill above it. As they came nearer, he took dragon form and soared up high above his ships, leading them, gazing into the west for the sight of that hill..The Doorkeeper looked at her for what seemed a long time.
