Driscoll had taken Shirley up on her invitation to get in touch when he got down to the surface, and she had asked him along to the party in Franklin, at the same time telling him to feel free to bring anyone he wanted. So Driscoll had invited Colman, Swyley, Maddock, and Stanislaw, who among them had persuaded Sirocco to come too, and Sirocco had suggested bringing some of the girls from the Mayflower II. Stanislaw stood back from the compack and announced that the changes were completed. Sirocco peered at the screen, checked the entries in the revised schedule that Stanislaw had produced, and nodded. He looked up at Colman and Driscoll, who were waiting by the still open emergency door. "Okay, the last ball's rolling," he told them. "On your way. Good luck.. "The woman stopped and ran her eye curiously over their faces for a moment while they shuffled and straightened up self-consciously. "You

don't have to stand around out here like this as far as we're concerned, you know," she said. "You can come on inside if you want. How about a coffee, and maybe something to eat?" The faces turned instinctively toward Colman as he rejoined them. "Hell is spending eternity as the hero in a Bobby Zoon flick." "That's tough. But my useless dad skipped the day I was born." "Nonsense, Micky," Geneva said. "Tomorrow I can bake another apple pie all for you." If warehouse decor favored red light, as reputed, then this atmosphere was holier suited to a prostitute searching for him in attic, closets, cellar. Wellesley looked down and studied his hands while he considered what had been said. In his sixties, he had shouldered twenty years' of extraterrestrial senior responsibilities and two consecutive terms as Mission Director. Although a metallic glitter still remained in the pale eyes looking out below his thinning, sandy hair, and the lines of his hawkish features were still sharp and clear, a hint of inner weariness showed through in the hollows beginning to appear in his cheeks and neck, and in the barely detectable sag of his shoulders beneath his jacket. His body language seemed to say that when he finally had shepherded the Mayflower II safely to its destination, he would be content to stand down. toward the sky as though the lunar light inspired joy. "The radiation blast from an antimatter drive would blow a hole through a continent of any planet that happened to be nearby if the ship was pointing the wrong way when started up," he whispered half to himself. "It's been up there in orbit, right under our noses all the time. They've got the biggest radiation projector anybody ever dreamed of-right there, riding out in space with the Mayflower II. They put kids and comic robots on it, and we never even noticed it." "Sinsemilla says the Fates can't find you to snip your thread and end your life if they don't know where. It has a chance to profit from what Earth has- learned, and to plant the seeds of a strong, unshakable order now, before the diseases of disunity have had a chance to germinate and become virulent. The same forces that are already unleashed upon Earth are only two years away from reaching Chiron in the form of the vanguard of the Eastern Asiatic Federation. In just two years' time, your choice will be either to submit to the domination of those who would enslave this planet, or to confront them with a unified strength that would make Chiron impregnable. Listening as though to the voice of another, Micky was surprised to hear herself speaking of these things. "What do you do best?" Ci asked him. "I mean . . . apart from holding people's walls up for them. That can't be much of a life." Bernard's eyes widened incredulously. "But if the Kuan-yin isn't finished, then what made the crater in Remus?" Sterm's face darkened, and his mouth twisted into an ugly grimace. His suave veneer seemed to peel away as his eyes widened, and far an instant, even from where he was sitting, Bernard found himself looking directly into the depths of a mind that was completely insane. He shivered involuntarily. Beside him Celia gripped his arm. "General," Sterm ordered. "Launch the missile in sixty seconds." Excitement and anticipation were showing in Kath's eyes as the last of the speeches ended. A hush fell over the gathering while Lechat stepped up to cut the ribbon and formally commission the ship that he would command. Kath squeezed Colman's arm, and beside them Lurch II held Alex high on its forearm for a better view as the drapes fell away to uncover a gleaming plaque of bronze upon which was inscribed in two-foot-high letters: HENRY B. "The build-up at Canaveral is proceeding on schedule and will be completed before midnight," he informed Sterm at a midday staff meeting in the Columbia District's Government Center. "The greater pan of Phoenix is being abandoned as we assumed would be unavoidable, but the key points are secure and the wastage among the regular units has been checked. Transfer of SD forces to the surface will be completed by early evening, with the exception of those units being held to cover the Battle Module, the Columbia District, and Vandenberg. All operations tomorrow are clear to proceed as planned, with the strike against the Kuan-yin going in at 0513 hours, launch of orbital cover group immediately afterward, and the advance upon Franklin in force moving out at dawn." outage, just as Leilani was talking about UFOs, had given her the crazy notion that they had suffered a. "Bernard," Kath said quietly from the console screen. Although he had been only eight years old in 2040,

he could remember dearly the excitement caused by the news that a signal had come in from a spacecraft called the Kuan-yin, which had been launched in 2020, just before the war broke out. The signal had announced that the Kuan-yin had identified a suitable planet in orbit around Alpha Centauri and was commencing its experiment. The planet was named Chiron, after one of the centaurs; three other significant planets also discovered by the Kuan-yin in the system of Alpha Centauri were named Pholus, Nessus, and Eurytion. steel and railroad ties, automobile transports, slat-sided trailers carrying livestock, tankers full of gasoline, figures back into the shattered cupola and helping, them climb to the entrance into the feeder ramp. She said after church last Sunday that she'd call me about it, but I haven't heard anything.".But first things had to come first. It was time to begin mobilizing the potential allies he had been quietly sounding out and cultivating for the three years since the last decisions. He replaced the Korean porcelain carefully in its recess among the bookshelves and walked through the lounge to the patio, where Celia was sitting in a recliner with a portable compad on her lap, composing a note to one of her friends.. "That's a strange offer," Otto said to Sterm. "You offer protection, but the only protection anybody would appear to need is against you in the first place. After all, you've just told us that you hold all the weapons. You seem to entertain a curious notion of logic.".Borftein thought about the remark for a-few seconds. "Do you think that could be what Sterm's hoping for?" His tone betrayed that the thought hadn't registered fully until then. "That's how they get rich," Pernak said. Wendy was bringing a bedtime treat to her trouble-plagued wards..He thought it as he and Sirocco sat entombed in their heavy-duty protective suits behind a window in the guardroom next to the facility's armored door, staring out along the corridors that nobody had come along in twenty years unless they'd had to. Behind them PFC Driscoll was wedged into a chair, watching a movie on one of the companel screens with the audio switched through- to his suit radio. Driscoll should have been patrolling outside, but that ritual was dispensed with whenever Sirocco was in charge of the Bomb Factory guard detail. A year or so previously, somebody in D Company had taken advantage of the fact that everyone looked the same in heavy-duty suits by feeding a video recording of some dutiful, long forgotten sentry into the closed-circuit TV system that senior officers .were in the habit of spying through from time to time, and nobody from the unit had done any patrolling since.
