She sat on a while by the Thwilburn. She was troubled by what he had told her and by her thoughts. connection between magic and sexuality may depend on the man, the magic, and the circumstances..The Patterner never came to her much before noon, so she had the mornings free. She was used to."Learn our strength!" said Medra..will be Archmage. Under his rule Roke will be as it was. The king will receive the true crown from."She will when the time comes. "I'm sorry," he said..though there was a great magery in her, which had brought her with him every step of that strange..even then, if a wizard met up with one whose powers were greater than his own, he might be..She looked at him. She could not speak. She stood up and after a moment walked out of the stableyard, off across the hill, on the path that went around it halfway up. One of the dogs, her favorite, a big, ugly, heavy-headed hound, followed her. She stopped on the slope above the marshy spring where Rose had named her ten years ago. She stood there; the dog sat down beside her and looked up at her face. No thought was clear in her mind, but words repeated themselves: I could go to Roke and find out who I am..The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships..The one with a voice like a deep-toned bell looked at her too, and spoke to her with a plain, kind severity. "As I see it, the man who brought you here meant to do harm, but you do not. Yet being here, Irian, you do us and yourself harm. Everything not in its own place does harm. A note sung, however well sung, wrecks the tune it isn't part of. Women teach women. Witches learn their craft from other witches and from sorcerers, not from wizards. What we teach here is in a language not for women's tongues. The young heart rebels against such laws, calling them unjust, arbitrary. But they are true laws, founded not on what we want, but on what is. The just and the unjust, the foolish and the wise, all must obey them, or waste life and come to grief."..Iria, and she came striding down to meet him. "I'm sorry, Ivory," she said, looking up at him with..BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his..Reluctant, he stepped forward, barefoot and bare-legged; he had rolled up his cloak into his pack an hour ago when the sun came out. Reeds brushed his legs. The mud was soft and sucking under his feet, full of tangling reed-roots. He made no noise as he moved slowly out into the pool, and the circles of ripples from his movement were slight and small. It was shallow for a long way. Then his cautious foot felt no bottom, and he paused..".Seemed odd. Old woman from a village inland, never seen the sea, calling the name of an island away off like that."..His head hurt again, and he whimpered and shivered, trying to draw himself together for warmth..".Practice," Rose said, rather sourly. "I know." She flicked a pebble at Diamond. It turned into a butterfly in midair. He flicked a butterfly back at her, and the two flitted and flickered a moment before they fell back to earth as pebbles. Diamond and Rose had worked out several such variations on the old stone-hopping trick..supposed to wait until you got tired of playing wizard. Well, I got tired of waiting." Her voice..schooling. It's a wonderful thing to fly on the wings of a falcon, mistress, and to see the earth below you with a falcon's eye. And summoning, which is naming truly, is a great power. To know the true name is to have power, as you know, mistress. And the summoner's art goes straight to that. It's a wonderful thing to summon up the semblance and the spirit of one long dead. Somewhere..through him, Roke. If Early (of whom he knew only his use-name and reputation) caught him and used."Not for the same reasons as you," she said, "but I still want to. And we came all this way. And you know my name."..He looked about, curious and wary. All over the hill spark-weed was in flower, its long petals blazing yellow in the grass. Children on Havnor knew that flower. They called it sparks from the burning of Ilien, when the Firelord attacked the islands, and Erreth-Akbe fought with him and defeated him. Tales and songs of the heroes rose up in Medra's memory as he stood there: Erreth-Akbe and the heroes before him, the Eagle Queen, Heru, Akambar who drove the Kargs into the east, and Serriadh the peacemaker, and Elfarran of Solea, and Morred, the White Enchanter, the beloved king. The brave and the wise, they came before him as if summoned, as if he had called them to him, though he had not called. He saw them. Women's powers were particularly distrusted and maligned, the more so as they were conflated with the Old Powers..Magic was a wild talent before the time of Morred, who as both king and mage established intellectual and moral discipline for the art magic, gathering wizards to work together at the court for the general good and to study the ethical bases and constraints of their practice..She stood up. He stopped now and then and sniffed. He sat down on the hillside beside the scar in the ground, resting his tired legs. He studied the ground where

some crumbs of fresh dirt lay and the grass was bent. He stroked the bent grass to straighten it. He got to his feet at last, went for a drink of the clear brown water under the willows, and set off down the valley towards the mine..where it left the wood, above all the crossings. She did the same. Then sitting in the cool, long."Your name is beautiful, Irioth," she said after a while. "I never knew my husband's true name. Nor he mine. I won't speak yours again. But I like to know it, since you know mine."."More a matter of getting in with it, I think." The old man was burying the core of his apple and the larger bits of eggshell under loose dirt, patting it over them neatly. "Of course I know the words, but I'll have to learn what to do as I go. That's the trouble with the big spells, isn't it? You learn what you're doing while you do it. No chance to practice. "Ah-there! You feel that?"."Got you," the old man said, looking down at the muddy, lax body. He added, "Too late," regretfully. He stooped to see if he could pick him up or drag him, and felt the faint warmth of life. "You're tough," he said. "Here, wake up. Come on. Otter, wake up."Hemlock was 10th to practice any of the lesser arts of magic. He did not put out a finding spell, as any sorcerer might have done. Nor did he call to Diamond in any way. He was angry; perhaps he was hurt. He had thought well of the boy, and offered to write the Summoner about him, and then at the first test of character Diamond had broken. "Glass," the wizard muttered. At least this weakness proved he was not dangerous. Some talents were best not left to run wild, but there was no harm in this fellow, no malice. No ambition. "No spine," said Hemlock to the silence of the house. "Let him crawl home to his mother."."I saw it."
